PUSH TO EXIT

In emergency press and hold exit button while opening door
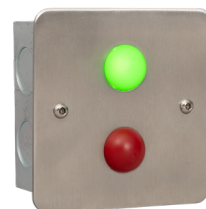

SREB/YB

SPECIFICATION

SREB/YA
· Flush fitting
· Stainless steel plate
· IP65 rated switch
· Output: 4 AMP contact @ 30V AC/DC
· Double pole NO/NC contact
· Both contacts can be installed to provide a fail safe solution
· Use normally open circuit to trigger a timed exit on controller (Normally closed circuit will remove power to lock directly on a momentary basis)
· Can be used to replace a green break glass that is often misused (must be approved by local fire control)

FEATURES

SREB/YB
