

EXTENSION TOP PLATE

ETP600

| SPECIFICATION | FEATURES | OTHER PRODUCTS |
|---------------|----------|----------------|
|---------------|----------|----------------|

ETP600
 • Light and strong aluminium plate (anodised)
 • Multiple fixing holes for holding strength
 • Comes with RGL 'easy fit' bracket system - for safer and easier installs

The ETP600 replaces the mounting plate that comes supplied with the ML600 range of maglocks. It allows you to install on non standard frames when fitting the maglock onto an outward opening door.

ETP600
 • Suitable for use on the following products:
 - ML600
 - ML600-M
 - ML600-MDS

Can be used with ABP600 to pack out the armature if required.
